Business Profitability, Loyalty, and Sustainability,
through Excellent Customer Service

Five half-days starting April 26, 2021

Boosting Business Profitability through a Five-Star Customer Experience Online Program

A Management Development Course for Achieving Business Profitability,
Loyalty, and Sustainability, through Excellent Customer Service

OVERVIEW

Many companies today are challenged to provide bold, exceptional customer touchpoints that deliver positive experiences compared to the competition. With the advent of social media and online platforms, customers view experiences surprisingly in simple terms, and everything nowadays boils down to a five-star rating customer experience. It is currently an effective barometer of customer interactions with the business at various touchpoints.

Mostly, companies struggle to provide a five-star customer experience because they still lack a complete, accurate view of how well their customer experience strategy is performing. There is a massive disconnect in the company practices and customer viewpoints, which we call as the “experience gap.” Although it is a proven fact that satisfied customers can help support your business through positive recommendations, which would drive more revenues and profitability from new referral sources of business, then how come there are still some businesses that do not pay close attention to providing excellent customer service?

It is maybe because profitability in business is often tied to competitive marketing and sales strategies. However, in today's environment and context, profitability can no longer be managed by simply tweaking the difference between revenues and expenses. Modern research shows that Excellent Customer Service has a more lasting effect on business profitability, loyalty, and sustainable business model.

The hospitality industry may have created the standards of “Five Star Customer Experience”, but the concept, model, and framework could easily be applied to many different businesses and industries. You can learn from the industry leaders who were able to get to that position by providing excellent service to their customers. Boosting Business Profitability Through a Five-Star Customer Experience is a management development course recommended for business leaders in retail, restaurants, hotels, hospitals, banks, business process outsourcing, telecommunications, and the airline industry, to help them achieve business profitability, customer loyalty, and a sustainable business model, through excellent customer service.

PROGRAM OBJECTIVES

Course Participants would better understand the following concepts:

- Achieving sustained profitability thru 5 Star Customer Experience (CX)
- Defining how good your business is doing
- What is Service Quality
- What are the components of a Customer Journey
- How to Provide a Five Star Customer Experience

Your Program Faculty

Vlademir A. Reyes
Adjunct Faculty
Asian Institute of Management

Although Vlad entered the University of the Philippines as a Mechanical Engineering major, he shifted course within his first year. He followed his passion for specializing in hospitality to be able to provide ultimate guest satisfaction to his guests. He has been with the hotel industry for almost 40 years – having worked in the US, China, and South + Southeast Asia.

Vlad has always been associated with upper class and luxury hotel brands like Hilton Worldwide, Pan Pacific Hotels Group, the Peninsula, and the JA Resorts & Hotels in various positions including General Manager, Cluster General Manager and Country Manager (China). In 2014, Hilton Nanjing Riverside, which was being managed by Vlad, won 3 top awards including 'Highest increase in Hotel EBITDA,' "Highest Increase in Food & Beverage Revenues," and "Highest increase in total Hotel Revenues" amongst the almost 40 Hilton Worldwide hotels in China. He was also awarded the Hilton Asia Pacific "Chief Executive Award for 1999" when he led the successful opening of the Maldives Hilton.

He is now an independent consultant in Manila, focusing on assisting businesses in delivering top-notch guest satisfaction as a means of achieving higher profitability.
